

Hossam Sabry

BIM Structural Engineer

✉ e.hossamsabry@gmail.com ☎ 0111 866 8625 - 0150 117 1917 📍 Alexandria, Egypt

🌐 e-hossamsabry 🔗 Portfolio

Professional Summary

Civil Engineer with hands-on Technical Office experience developing structural BIM models, shop drawings, and quantity schedules for large-scale construction projects. Skilled in AutoCAD and Revit, with practical exposure to clash detection, model issue tracking, and cross-discipline coordination between structural, architectural, and MEP teams.

Comfortable learning and following established BIM standards, templates, and workflows within a Technical Office environment.

Education

B.Sc. in Civil Engineering

Sep 2019 – Jul 2025 | Alexandria, Egypt

Alexandria University

- Graduation Project: Structural Behavior & Material Properties Resistance of Concrete (Excellent)
- Studied structural behavior of concrete under varying loads and environmental conditions
- Analyzed effects of admixtures on strength and durability
- Delivered technical defense presentation to academic panel
- Performed full structural quantity surveying for a 10-floor residential building

Professional Experience

Technical Office & Site Intern

May 2026 – Jul 2026 | Alexandria, Egypt

GLOBAL ENERGY FOR INVESTMENT & INDUSTRY

Al Burouj Project – one villa unit of 40 in the development

- Prepared shop drawings and quantity schedules from structural BIM models in Revit and AutoCAD
- Reviewed structural drawings against BIM standards and design workflows, flagging discrepancies before they reached the field
- Prepared and reviewed BOQs and quantity take-offs for structural elements
- Prepared RFIs and submittals on structural design and model coordination issues
- Participated in site inspections, monitoring structural execution against design standards
- Maintained quality control documentation and engineering records for structural deliverables

Technical Office Intern

Jul 2024 – Sep 2024 | Cairo, Egypt

Aqar Masr Developments – Anakaji Project

Large-scale residential development, New Capital (10 building clusters, 800 units)

- Developed and updated structural BIM models in Revit for the residential development
- Reviewed clash detection reports and coordinated resolutions with architectural and MEP teams to keep the federated model conflict-free
- Prepared BOQs and quantity take-offs for structural components using Revit, AutoCAD, and Excel
- Prepared structural shop drawings and schedules from BIM models
- Contributed to RFIs and material submittals on structural design issues, coordinating with architectural and structural teams
- Learned BIM tools, standards, and project procedures under senior engineer guidance

Professional Training

ITI – BIM Automation Program

Information Technology Institute (ITI)

- Studying BIM authoring tools, Revit API, Dynamo, and AutoCAD API for automation workflows
- Building programming foundations in C#, OOP, and MVVM to support BIM scripting and Windows application development
- Covering database fundamentals, data structures, and xBIM for structured BIM data handling

Full Stack .NET Developer Program

Digital Egypt Pioneers Initiative (DEPI)

- Strengthened programming foundations ahead of BIM automation and Revit API development
- Built proficiency in C# and object-oriented programming, directly applicable to Revit API and Dynamo scripting
- Developed full-stack application with ASP.NET Core MVC and SQL Server, gaining practical database and backend fundamentals
- Practiced Git version control and unit testing, supporting reliable, maintainable automation scripts
- Delivered a capstone project in a team environment, applying software design fundamentals

Technical Skills

Engineering & BIM Tools: Revit (Structural Modeling) | Navisworks (Clash Detection & Coordination) | AutoCAD | Primavera P6 | Microsoft Excel (Advanced)

Programming & Automation: Revit API | Dynamo | AutoCAD API | xBIM | C# | OOP | MVVM

Core Skills: Technical documentation | BOQ preparation | Quantity surveying | Site coordination | Shop drawing

Languages

Arabic – Native

English – Professional Proficiency
